

Dragi učenci, učenke, spoštovani starši.

Pred vami je prvi sklop navodil za delo pri predmetu TJA. Obsega vsebine za približno tri šolske ure oziroma za teden od 16. do 20. marca 2020.

Tako kot pri pouku vas bom tudi tu vodila skozi posamezno enoto v učbeniku. Kjer je to potrebno, bodo dodani besedišče, razlaga jezikovnih znanj, povezave do ustreznih spletnih strani in vaje za utrjevanje.

Naj vas spomnim, da kvalitetno razlago slovnice najdete tudi v učbeniku ob zaključku posameznih enot in na koncu delovnega zvezka.

Založba Rokus Klett vsem učencem omogoča brezplačen celodnevni dostop do elektronskih in interaktivnih gradiv – učbenika in delovnega zvezka.

Navodila za aktivacijo dostopa najdete na

https://www.devetletka.net/resources/files/Navodilo_za_registracijo.pdf. Sledite navodilom in se registrirajte kot učenec. Še namig: pravilnost odgovorov v delovnem zvezku lahko preverite s klikom na »kvadratac s kljukico«. Rešitve se bodo obarvale modro.

Delo si razporedite tako kot ustreza vam. Pomembno je, da si vzamete dovolj časa, še posebej za utrjevanje.

Učne liste lahko natisnete in prilepite ali prepisete. Enako velja za besedišče. Vsekakor si boste nove vsebine bolje zapomnili, če jih boste prepisali v zvezek.

Vprašanja ali skenirano opravljeno delo mi lahko pošljete preko **eAsistenta** ali na darinkasmit2020@gmail.com.

Uspešno delo vam želim in ostanite zdravi.

Darinka Šmit Bahčič

Gradivo	Vsebina	Utrjevanje
Prvi teden bo delno namenjen utrjevanju in ponavljanju, delno pa uvajanju novih učnih vsebin.		
Učbenik, str. 60 do 63 Delovni zvezek, do str. 46	Ponavljjanje in utrjevanje: MODULE 3, UNIT 6 (od vključno str. 60 dalje) Reši preostale vaje v učbeniku in DZ	Utrjuj znanje že znanih vsebin
Učbenik, str. 64	NOVE VSEBINE: UNIT 6 Extra exercises Če je prostora za reševanje premalo, reši vajo v zvezek. Preveri pravilnost odgovorov v rešitvah.	Utrjuj znanje že znanih vsebin
Učbenik, str. 65 Delovni zvezek, str. 47	Journey into space Poglej si posnetek z mednarodne vesoljske postaje – voden ogled astronautke Sunite Williams: https://www.youtube.com/watch?v=06-Xm3_Ze1o	

	Preberi in reši nalogo. Preveri pravilnost svojih odgovorov – rešitve so v prilogi. Besedišče v prilogi prepisi v zvezek.	
Učbenik, str. 71	UNIT 7 What's it about? Poveži slike in povedi.	
Učbenik, str. 72/1 PRILOGA Our changing world	Our changing world Reši nalogo. Učni list v prilogi prepisi/natisni in prilepi v zvezek.	
Učbenik, str. 72/3	Oglej si fotografije. Razmisli, katere so pozitivne in katere negativne posledice napredka?	
Učbenik, str. 72/4	Presentation, I've changed the world Preberi »pogovor med zemljo in človekovimi možgani«. A) Ali sta oba prepričana, da je svet sedaj boljši? B) Dopolni manjkajoče besedilo s povedmi (a-e). Poslušaj posnetek in preveri pravilnost svojih odgovorov. <i>Rešitve in zapis posnetka so v prilogi.</i>	
Delovni zvezek, str. 48, 49	Revision Extension Preveri pravilnost odgovorov v e-delovnem zvezku.	Utruj znanje že znanih vsebin

JOURNEY INTO SPACE

Vocabulary

a space station – vesoljska postaja
a starting point – začetna točka
a journey – potovanje
nearby—bližnji
were constructed – so bili narejeni
to launch – izstreliti
in sections – v kosih
orbit – orbita, tirnica
above – nad
surface – površje, površina
a football pitch – nogometno igrišče
several – nekaj
scientific research – znanstvena raziskava
physics – fizika
to develop – razviti
to improve—izboljšati
vaccines – cepiva
to prevent – preprečiti
a serious disease – resna bolezen
no gravity – ni gravitacije
to float – lebdeti
a spine – hrbtenica
to expand – razširiti se

Rešitve in dodatno branje

BACKGROUND

The International Space Station is a space laboratory shared by the space agencies of Russia, the USA, Japan, Canada and a group of European countries. The first module was launched in 1998 and construction continued for the next 16 years, with more sections being transported by space shuttle and assembled in space. There is usually a crew of six living on the space station at any one time and they conduct experiments in many fields, including astrobiology, astronomy, medical science and meteorology. At the time of writing, the space station has been visited by astronauts from 15 different countries.

The first 'space tourist' was American businessman Dennis Tito, who was flown to the Russian Mir space station in 2000. Two years later a South African millionaire, Mark Shuttleworth, spent ten days on the International Space Station. The cost of each flight was approximately \$20 million. Others have followed, including the first woman space tourist, Anousheh Ansari, in 2008. The present cost is estimated to be \$30–40 million.

Answers

- 1 False. There were earlier space stations, for example, Salyuts and Skylab.
- 2 True.
- 3 False. It travels round the Earth at about 25,000 kilometres per hour.
- 4 True.
- 5 False. The astronauts can make clean drinking water on the ISS.
- 6 True.
- 7 False. There are no fridges on the ISS.
- 8 True.

REŠITVE

Učbenik, str. 72/4B: 1c 2 e 3d 4b 5 a

Tapescript:

Brain: I've changed the world!

Earth: Yes, the world is very different now. But have you forgotten about me?

Brain: No, I haven't. People can visit every corner of the Earth now. I've produced the car and the aeroplane.

Earth: Yes, you've made some amazing machines.

Brain: And I've built some fantastic cities.

Earth: Yes, but you've polluted the air and the oceans, and you've destroyed thousands of animals and plants. The natural world is in danger. You haven't taken care of the environment.

Brain: You're right. But people are much healthier now. Modern medicine has saved the lives of millions of people.

Earth: Yes, I know. But a lot of people are starving. Your technology hasn't produced enough food for everyone.

Brain: Perhaps not. But people everywhere can communicate easily. I've invented the telephone and the computer. I've put satellites into space.

Earth: Yes, you've improved communications.

But people haven't learnt to share. They're often selfish and unkind.

Brain: That's true. But I've done some incredible things.

Earth: And you've made a lot of mistakes too.

REŠITVE

EXTRA EXERCISES, str. 64

Nal. 1: 1 b 2 b 3 c 4 b 5 c

Nal. 2: 1 b 2 a 3 b 4 a 5 a

Nal. 3: 1 I might study French next year. 2 We'll probably go shopping on Saturday.

3 Will you be able to finish your homework? 4 I probably won't go out tonight.

5 They might not come to our party.

Nal. 4: 1 tablecloths 2 menu 3 spoon 4 plate 5 knife 6 pepper 7 serviette 8 fork

Nal. 5: Npr.

Can I have tomato soup, please?

Could I have chicken and mushrooms?

Yes, I'd like some mineral water, please.

No, thank you.

Nal. 6:

1 Kaj ti je všeč?

2 Pojdimo se zabavat v klube.

3 Obljubim, da ne bom pozabil/-a.

4 Sestradan/-a sem.

5 Mislim, da bom poskusil/-a pašteto.

6 Pogrešal/-a te bom.

Nal. 7:

1 greenhouse 2 raincoat 3 toothpaste 4 suncream 5 headphones 6 thunderstorm

7 policeman 8 babysitter
